2. Basis of preparation

2.1 Statement of compliance

These consolidated condensed interim financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan for interim financial reporting comprise of:

- International Accounting Standard (IAS) 34, Interim Financial Reporting, issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017; and

- Provisions of and directives issued under the Companies Act, 2017.

Where the provisions of and directives issued under the Companies Act, 2017 differ with the requirements of IAS 34, the provisions of and directives issued under the Companies Act, 2017 have been followed.

2.2 These consolidated condensed interim financial statements are un-audited and are being submitted to the members as required by section 237 of the Companies Act, 2017 (the 'Act').

These consolidated condensed interim financial statements do not include all of the information required for annual financial statements and should be read in conjunction with the annual financial statements as at and for the year ended June 30, 2023. Selected explanatory notes are included to explain events and transactions that are significant to and understanding of the changes in the Group's financial position and performance since the last annual financial statements.

3. Significant accounting policies

3.1 The accounting policies and the methods of computation adopted in the preparation of these consolidated condensed interim financial statements are the same as those applied in the preparation of preceding annual published financial statements of the Group for the year ended June 30, 2022 except for adoption of new and amended standards as set out in note 3.3 and 3.4.

3.2 Standards, amendments and interpretations to International Financial Reporting Standards (IFRS) that are effective in the current period

Certain standards, amendments and interpretations to International Financial Reporting Standards (IFRS) are effective for accounting periods beginning on July 1, 2022, but are considered not to be relevant or to have any significant effect on the Group's operations (although they may affect the accounting for future transactions and events) and are, therefore, not detailed in these consolidated condensed interim financial statements.

3.3 Standards, amendments and interpretations to existing standards that are not yet effective and have not been early adopted by the Group

There are certain standards, amendments to the accounting standards and interpretations that are mandatory for the Group's accounting periods beginning on or after July 01, 2023 but are considered not to be relevant or to have any significant effect on the Group's operations and are, therefore, not detailed in these consolidated condensed interim financial statements.

4. Accounting estimates

The preparation of these consolidated condensed interim financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

In preparing these consolidated condensed interim financial statements, the significant judgments made by management in applying accounting policies and key sources of estimation were the same as those that were applied to the annual financial statements of the Group for the year ended June 30, 2023, with the exception of change in estimate that is required in determining the provision for income taxes as referred to in note 4.1.

4.1 Taxation

Income tax expense is recognized in each interim period based on best estimate of the weighted average annual income tax rate expected for the full financial year. Amounts accrued for income tax expense in one interim period may have to be adjusted in a subsequent interim period of that financial year if the estimate of the annual income tax rate changes.

6. Deferred income - Government grant

This represents deferred grant recognized in respect of the benefit of below-market interest rate on the facilities availed under State Bank of Pakistan's (SBP) Refinance Scheme for Payment of Wages and Salaries to the Workers and Employees of Business Concerns ('Refinance Scheme'). The benefit has been measured as the difference between the fair value of the loan and the proceeds received. The Group used the prevailing market rate of mark-up at the date of disbursement for similar instruments to calculate fair values of respective loans.

7. Contingencies and commitments

7.1 Contingencies

There is no significant change in contingencies from the preceding annual financial statements of the Group for the year ended June 30, 2022.

12. Financial risk management

12.1 Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including currency risk, interest rate risk, and other price risk), credit risk and liquidity risk.

The consolidated condensed interim financial information does not include all financial risk management information and disclosures required in the annual financial statements, and should be read in conjunction with the group's annual financial statements as at June 30, 2023.

There have been no changes in the risk management department or in any risk management policies since the year ended June 30, 2023.

12.2 Fair value estimation

a) Fair value hierarchy

The different levels for fair value estimation used by the Group have been defined as follows:

- The fair value of financial instruments traded in active markets (such as publicly traded equity securities) is based on quoted (unadjusted) market prices at the end of the reporting period. The quoted market price used for financial assets held by the Group is the current bid price. These instruments are included in Level 1.

- The fair value of financial instruments that are not traded in an active market (for example over-the-counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity specific estimates. If all significant inputs required to determine fair value of an instrument are observable, the instrument is included in Level 2.

- If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity instruments.

To provide an indication about the reliability of the inputs used in determining fair value, the Group classifies its financial instruments into the three levels prescribed above. The following table presents the Group's financial assets measured and recognised at fair value at June 30, 2023 on a recurring basis:

	Level 1	Level 2	Level 3	Total
		(Rupees in thousand)		
Recurring fair value measurements				
As at September 30, 2023				
Assets				
Investments - FVOCI	16,808,404	-	5,842,886	22,651,290
Investments - FVPL	10,019	-	-	10,019
Biological assets			1,165,650	1,165,650
As at June 30, 2023				
Assets				
Investments - FVOCI	14,902,201	-	5,842,886	20,745,087
Investments - FVPL	15	-	-	15
Biological assets			1,150,612	1,150,612

The Group's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

There were no transfers between Level 1, 2 and 3 during the period. There were no changes in valuation techniques during the period.

The Group did not measure any financial assets or financial liabilities at fair value on a non-recurring basis as at September 30, 20223.

b) Valuation techniques used to determine fair values

Specific valuation techniques used to value financial instruments include:

- the use of quoted market prices or dealer quotes for similar instruments; and

- for other financial instruments - discounted cash flow analysis.

c) Fair value measurements using significant unobservable inputs

The main level 3 inputs used by the Company to determine fair value of investment in Nishat Hotels and Properties Limited ('NHPL') and Hyundai Nishat Motor (Private) Limited ('HNMPL') are derived and evaluated as follows.

- Discount rate is determined using a capital asset pricing model to calculate a pre-tax rate that reflects current market assessments of the time value of money and the risk specific to NHPL and HNMPL.

- Long term growth rate is estimated based on historical performance of NHPL and HNMPL and current market information for similar type of entities.

The significant assumptions used in this valuation technique for NHPL are as follows:

- Discount rate of 16.68% per annum.

- Long term growth rate of 2% per annum for computation of terminal value.

- Annual growth in costs is linked to inflation with a range of 6.50% to 25.60% per annum.

The significant assumptions used in this valuation technique for HNMPL are as follows:

- Discount rate of 23.80% per annum.

- Long term growth rate of 2% per annum for computation of terminal value.

- Annual growth in costs are linked to inflation and currency devaluation at 15% per annum and revenues are linked to currency devaluation at 15% per annum.

Sensitivity analysis

Sensitivity analysis of the significant assumptions used in the valuation technique are as follows:

If the discount rate increases by 1% with all other variables held constant, the impact on fair value as at September 30, 2023 would be Rs 209.375 million and Rs 191.977 million lower for NHPL and HNMPL respectively.

If the long term growth rate decreases by 1% with all other variables held constant, the impact on fair value as at September 30, 2023 would be Rs 71.875 million and Rs 77.093 million lower for NHPL and HNMPL respectively.

If inflation decreases by 1% with all other variables held constant, the impact on fair value as at September 30, 2023 would be Rs Rs 21.875 million and Rs 317.710 million higher for NHPL and higher for HNMPL respectively.

If interest rate increases by 1% with all other variables held constant, the impact on fair value as at September 30, 2023 would be Rs 15.625 million and Rs 30.499 million lower for NHPL and lower for HNMPL respectively.

13. Operating segments

Segment information is presented in respect of the group's business. The primary format, business segment, is based on the group's management reporting structure.

The group's operations comprise of the following main business segment types:

Type of segments	Nature of business
Cement	Production and sale of clinker, Ordinary Portland and Sulphate Resistant Cements.
Paper	Manufacture and supply of paper products and packing material.
Dairy	Production and sale of raw milk.

13.1 Segment analysis and reconciliation - condensed

The information by operating segment is based on internal reporting to the Group executive committee, identified as the 'Chief Operating Decision Maker' as defined by IFRS 8. This information is prepared under the IFRS's applicable to the consolidated financial statements. All group financial data are assigned to the operating segments.
